ROOM PERFORMANCE VS PROPERTY (63.2%)

ROOM NAME	UTILISATION	VS PROPERTY	STAYS	NIGHTS SOLD
Protea Suite 01	76.67%	+13.47 pp	9	23
Acacia Garden Room 04	70.00%	+6.80 pp	8	21
Olive Suite 02	63.33%	+0.13 pp	7	19
Baobab Luxury Tent 09	46.67%	-16.53 pp	5	14

Base: 30-day period. Utilisation = room nights sold ÷ nights available for that unit.

MANAGEMENT INSIGHT SIGNAL

While overall property occupancy reached a healthy 63.2%, room performance ranges from 76.67% (Protea Suite) down to 46.67% (Baobab Tent). FastCheckIn brings these signals together so management can optimise pricing and promotion per

WHAT THIS SNAPSHOT SUPPORTS

GUEST ACTIVITY

Check-ins, total guests and average length of stay show how demand converted during the period.

OCCUPANCY & ROOM NIGHTS

Property-level occupancy sits alongside unit-level utilisation so managers see aggregate and exceptions.

ROOM PERFORMANCE

Each room is compared to the property average in percentage points — outliers surface quickly.

COMMERCIAL DIRECTION

Together with Visitor Origin Explorer, these measures support market focus and unit-level yield decisions.
